

Gladys A. Maldonado-Rodríguez

Gladys A. Maldonado-Rodríguez is an electrical engineer and attorney from San Juan, PR, with over 20 years of experience in telecommunications. As an engineer, she worked in the implementation of 10-digit dialing, number portability, and of one of the first ISPs in Puerto Rico, prtc.net. As an attorney, she has represented telecommunications clients before courts and administrative forums, including the FCC. She served as a legislative advisor in energy and telecommunications matters in the Puerto Rico Senate. She's currently a Commissioner at the Puerto Rico Telecommunications Regulatory Board.
